Trenton, NJ 08625

Gentlemen:

Enclosed herewith please find our revised Annual Registration. Please note that we have removed eleven (11) of the original twelve (12) underground storage tanks. These tanks were removed during May of 1988 by R.Fussell Pump and Tank, 135 Slack Ave., Trenton, NJ 08645. All applicable permits were filed with the City of Trenton and a copy of same forwarded to the EPA.

The one tank that we retained, identified as E-3, is a 8,000 gallon heating oil tank containing No. 2 heating oil, as identified in our original plot plan submitted. This tank was refibreglassed entirely, pressure tested and is back in active service.

We have enclosed our check, in the amount of \$100.00, covering the registration of our one (1) underground storage tank.

Thank you in advance for changing your records to reflect the removal of the eleven (11) underground tanks.

Sincerely,

George A. Owens
Vice-President- Operations
